Energy Policy

Index to Volume 13

February, April, June, August, October,

December 1985

Articles – titles

Coal

Energy policy and the energy economy in FR Germany: an overview. *Eike Röhling and Jochen Mohnfeld.* 13.6, 535–545

Transportation of US western coal: the impact of deregulation on unit train rates. *Michael B. Morrison.* 13.3, 243–252

Electricity

Avoided costs for solar facilities. *Theresa Flaim.* 13.3, 267–282

The electric power sector in developing countries. *Robert J. Saunders and Karl Jechoutek.* 13.4, 320–325

Electricity power generation options for the Netherlands to 2000: an evaluation of government's and environmentalists' scenarios. *Bert de Vries and Daan Dijk.* 13.3, 230–242

Non-participants in utility energy conservation programmes. *Robert M. Wirtschafter.* 13.2, 143–155

Energy conservation and efficiency

Commercial sector energy efficiency improvements: an economic and statistical analysis of empirical data. *Dan Kowalczyk.* 13.2, 169–178

Conneticut's residential conservation service: an evaluation. *Eric Hirst, Patricia S. Hu, Earle F. Taylor and Kathy M. Thayer.* 13.1, 60–70

The economics of energy conservation through top-up loft insulation. *Peter J.W.N. Bird.* 13.2, 179–187

Energy conservation and productivity growth: can we have both? *Sam H. Schurr.* 13.2, 126–132

Energy conservation in the industrial sector of developing countries. *G. Anandalingam.* 13.4, 335–339

Federal-state conservation programmes: the states' assessment. *Stephen W. Sawyer.* 13.2, 156–168

Impact of organizational factors on energy conservation measures. *Birger Rapp and Jan Selmer.* 13.5, 437–444

Information technology and the use of energy. *William Walker.* 13.5, 458–476

Non-participants in utility energy conservation programmes. *Robert M. Wirtschafter.* 13.2, 143–155

Residential conservation incentives. *Paul Stern, Linda G. Berry and Eric Hirst.* 13.2, 133–142

US appliance efficiency standards. *Patricia Rollin and Jan Beyea.* 13.5, 425–436

US states and energy efficiency: North Carolina's 'quango'. *Jon Veigel and Sanford Lakoff.* 13.5, 445–457

Energy security and international trade

Impact of the superpowers' energy balances on world oil. *Tony Scanlan.* 13.1, 5–12

Price and prospects for oil: carrying the burden of excess capacity. *Walter Goldstein.* 13.6, 524–534

Soviet gas and European security. *David M. Adamson.* 13.1, 13–26

World energy markets and the developing countries. *Boum-Jong Choe.* 13.4, 304–309

Energy supply and demand

Decentralized energy supply: suitability for the UK's industrial sectors. *S. S. Thabit and J. Stark.* 13.1, 71–83

Energy conservation and productivity growth: can we have both? *Sam H. Schurr.* 13.2, 126–132

Energy futures for oil-importing developing countries. *Michael Drohan.* 13.3, 215–229

Energy policy and the energy economy in FR Germany: an overview. *Eike Röhling and Jochen Mohnfeld.* 13.6, 535–545

'Immortal' energy systems and intergenerational justice. *Alvin M. Weinberg.* 13.1, 51–59

Impact of the superpowers' energy balances on world oil. *Tony Scanlan.* 13.1, 5–12

Nuclear uncertainties: energy loans for fission power. *Jan Willem Storm van Leeuwen.* 13.3, 253–266

Price and prospects for oil: carrying the burden of excess capacity. *Walter Goldstein.* 13.6, 524–534

Structural changes in the UK energy market. *H. Motamen and C. Schaller.* 13.6, 559–563

Nuclear power

'Immortal' energy systems and intergenerational justice. *Alvin M. Weinberg.* 13.1, 51–59

Nuclear uncertainties: energy loans for fission power. *Jan Willem Storm van Leeuwen.* 13.3, 253–266

Nuclear waste repository siting: an alternative approach. *Barry D. Solomon and*

Diane M. Cameron. 13.6, 564–580
Small nuclear power plants. *Carl Behrens*. 13.4, 360–370

Oil and gas

Competition in UK gas distribution: the effect of recent legislation. *Catherine Price* 13.1, 37–50
Energy futures for oil-importing developing countries. *Michael Drohan*. 13.3, 215–229
Impact of the superpowers' energy balances on world oil. *Tony Scanlan*. 13.1, 5–12
Oil exploration in developing countries. *Harry G. Broadman*. 13.4, 310–315
Petroleum taxes and optimal resource recovery. *Arild N. Nystad*. 13.4, 381–401
Price and prospects for oil: carrying the burden of excess capacity. *Walter Goldstein*. 13.6, 524– 534
Progressive mobilization of oil resources (Part 1). *P. C. Desprairies, X. Boy de la Tour and J. J. Lacour*. 13.6, 511–523
Soviet gas and European security. *David M. Adamson*. 13.1, 13–26
Transport constraints in Soviet petroleum. *Matthew J. Sagers and Milford B. Green*. 13.4, 371–380

Renewable and alternative energy

Avoided costs for solar facilities. *Theresa Flaim*. 13.3, 267–283
Biomass energy in developing countries. *William Ramsay*. 13.4, 326–329
Demand for woodfuels by households in the Province of Ilocos Norte, Philippines. *Eric Hyman*. 13.6, 581–591

Third World energy

Biomass energy in developing countries. *William Ramsay*. 13.4, 326–329
Demand for woodfuels by households in the Province of Ilocos Norte, Philippines. *Eric Hyman*. 13.6, 581–591
The electric power sector in developing countries. *Robert J. Saunders and Karl Jechoutek*. 13.4, 320–325
Energy and agriculture in developing countries. *Ramesh Bhatia*. 13.4, 330–334
Energy conservation in the industrial sector of developing countries. *G. Anandalingam*. 13.4, 335–339
Energy futures for oil-importing developing countries. *Michael Drohan*. 13.3, 215–229
Energy planning in developing countries. *Wesley K. Foell*. 13.4, 350–354
Energy pricing and policies in developing countries.*Russell deLucia and Michael C. Lesser*. 13.4, 345–349
Energy problems and policies in developing countries. *R. K. Pachauri and Rashmi Pachauri*. 13.4, 301–303
The Energy Research Group and its research survey. *Ashok V. Desai*. 13.4, 355–356
Energy technology acquisition for Third World development. *John Chesshire and John Surrey*. 13.4, 316–319
Oil exploration in developing countries. *Harry G. Broadman*. 13.4, 310–315
Transport and energy in developing countries. *David Geltner*. 13.4, 340–344
World energy markets and the developing countries. *Boum-Jong Choe*. 13.4, 304–309

National energy profiles and government policy

Competition in UK gas distribution: the effect of recent legislation. *Catherine Price*. 13.1, 37–50
Connecticut's residential conservation service: an evaluation. *Eric Hirst, Patricia S. Hu, Earle F. Taylor and Kathy M. Thayer*. 13.1, 60–70
Decentralized energy supply: suitability for the UK's industrial sectors. *S. S. Thabit and J. Stark*. 13.1, 71–83
Efficiency and the role of government in energy policy. *Mathilde Benveniste*. 13.1, 84–96
Electricity power generation options for the Netherlands to 2000: an evaluation of government's and environmentalists' scenarios. *Bert de Vries and Daan Dijk*, 13.3, 230–242
Energy planning in developing countries. *Wesley K. Foell*. 13.4, 350–354
Energy policy and the energy economy in FR Germany: an overview. *Eike Röhling and Jochen Mohnfeld*. 13.6, 535–545
Energy policy and the privatization of the UK energy industries. *Michael G. Webb*. 13.1, 27–36
Energy pricing and policies in developing countries. *Russell deLucia and Michael C. Lesser*. 13.4, 345–349
Energy problems and policies in developing countries. *R. K. Pachauri and Rashmi Pachauri*. 13.4, 301–303
The Energy Research Group and its research survey. *Ashok V. Desai*. 13.4, 355–356
Federal-state conservation programmes: the states' assessment. *Stephen W. Sawyer*. 13.2, 156–158
Potential energy planning conflicts in the UK. *Susan Owens*. 13.6, 546–558
Residential conservation incentives. *Paul Stern, Linda G. Berry and Eric Hirst*. 13.2, 133–142
Structural changes in the UK energy market. *H. Motamen and C. Schaller*. 13.6, 559–563
Towards decentralization: energy planning in Guandong, PR China. *Peter Brinkmann*. 13.3, 204–214
Transport constraints in Soviet petroleum. *Matthew J. Sagers and Milford B. Green*. 13.4, 371–380
US appliance efficiency standards. *Patricia Rollin and Jan Beyea*. 13.5, 425–436
US states and energy efficiency: North Carolina's 'quango'. *Jon Veigel and Sanford Lakoff*. 13.5, 445–457

Editorial comment

Energy in developing countries: Editor's introduction. See articles – titles. 13.4, 299–300
Free-falling prices – who could benefit? 13.1, 3–4
Is improved energy efficiency still an important policy issue? 13.2, 115–116
When we all agree. . . 13.3, 202–203

Communications on energy

An alternative projection model of future nuclear capacity. *M. Takei.* 13.4, 402–403
Analysis of post-audit energy data for 41 hospitals. *T.A. Vineyard.* 13.5, 480–485
Brazil's industrial energy conservation programme. *A. Behrens.* 13.5, 478–479
Economic evaluation of investments for electricity systems. *E.A. Bossanyi.* 13.3, 283–284
Economic evaluation of investments for electricity systems: a reply. *Nigel Evans.* 13.3, 284–285
An energy efficiency programme for UK local authorities. *Bill Sheldrick.* 13.5, 485–488
Fighting London's cold war. *Colin Hines.* 13.2, 188–189
Nuclear power and the Non Proliferation Treaty: how the carrot became a turnip. *Colin Hines and David Lowry.* 13.6, 592–593
Progress and problems of Poland's hard coal production. *M. Swiss.* 13.5, 477
Synfuel development impacts: econometric modelling and policy analysis. *Barry D. Solomon.* 13.1, 97–101
Woodfuel, deforestation and tree growing in the developing world. *Gerald Foley.* 13.2, 190–192

Viewpoints

The electric route to economic growth. *J.C. Smith.* 13.2, 120–125
Energy conservation: the need for a sharper focus. *Jane Carter.* 13.2, 117–119
Heat recovery schemes in the UK. *Gopal Srinivasan.* 13.5, 418–420
Promoting energy conservation in buildings. *Mayer Hillman.* 13.5, 421–424
Treating energy as a commodity. *T.W. Berrie and M. Hoyle.* 13.6, 506–511

Conference reports

The Acid Rain Inquiry. An Open Conference, Edinburgh, UK, 27–29 September 1984. *Nigel Evans and Jim Skea.* 13.1, 102–103
Conference of the Benelux Association of Energy Economists on Gas and Electricity Markets: Prospects and Policies, Kirchberg, Luxembourg, 23-25 September 1985. *R.C. Bending.* 13.6, 594–595
The BWEA Conference, Oxford, UK, 27–29 March 1985. *Arthur Conway.* 13.4, 404–405
Energy and economy – global interdependencies, Bonn, 3–5 June 1985. *Mark Baier and Martin Czakainski.* 13.5, 494–495
Energy management experience, Royal Institute of British Architects, London, 9–10 May 1985. *Derek P. Gregory.* 13.5, 489–490
First European Wind Energy Conference, Hamburg, FR Germany, 22–26 October 1984. *Arthur Conway.* 13.4, 404–405
Fourth Open Conference of UNICHAL, Copenhagen, 30 June – 4 July 1985. *Norman Jenkins.* 13.5, 492–494
The future of the electricity supply industry, Polytechnic of the South Bank, London, 25–27 June 1985. *Nigel Evans, Alice Morgan and Mark Barrett.* 13.5, 490–492
Half day symposium on 'Public perceptions of energy questions', London, 26 March 1985. *Chris Hope.* 13.4, 406–407
Inaugural Conference of the Norwegian Chapter of the International Association of Energy Economists, Chr Michelsen Institute, Bergen, Norway, 18–19 June 1984. *Chris Hope.* 13.1, 101–102
Issues in the economics of energy in LDCs, Surrey Economics Centre Workshop, Guildford, UK, 28 September 1984. *Peter Pearson and Paul Stevens.* 13.2, 192–195
The pressurized water reactor and the UK, University of Birmingham, Birmingham, UK, 22–23 April 1985. *Nigel Evans, Alice Morgan and Mark Barrett.* 13.5, 490–492
Symposium on Energy Sector Strategy and Management, Imperial College, London, 25–29 March 1985. *T.W. Berrie.* 13.3, 286–287
Windtech 85 International Symposium on Windship Technology, Southampton, UK, 23–25 April 1985. *Arthur Conway.* 13.4, 404–405

Letters to the editor

Economics of nuclear versus coal: big is beautiful? *Ferdinand E. Banks.* 13.4, 413
Electricity and CHP. *L.G. Brookes.* 13.2, 195
Energy trends in the USSR. *Theodore Shabad.* 13.4, 413–414
Taxation, uncertainty and the privatization of energy industries. *Peter J.W.N. Bird.* 13.6, 601

Book reviews

Blue Gold: The Political Economy of Natu-

ral Gas by J.D. Davis (Jonathan P. Stern). 13.1, 104–105

The Economics of Coal for Steam Raising in Industry by R.S. Holcomb and M. Prior (Jim Skea). 13.6, 600

Energy and Development in Southern Africa, Part 1 edited by Phil O'Keefe and Barry Munslow (Andrew MacKillop). 13.5, 499–500

Energy and Development in Southern Africa, Part 2 edited by Phil O'Keefe and Barry Munslow (Andrew MacKillop). 13.5, 499–500

Energy, Economics and Foreign Policy in the Soviet Union by Ed. A. Hewett (Matthew J. Sagers). 13.5, 497–498

Energy Management: Can we Learn from Others? by George Ray (David Hawdon). 13.5, 500–501

Energy Policy in America Since 1945 by Richard Vietor (Douglas A. Henderson). 13.4, 407–408

Energy Policy and Land Use Planning edited by D.R. Cope, P. Hills and P. James (Ray Kemp). 13.5, 498–499

Energy Pricing and Demand Management by Mohan Munasinghe (Tom Berrie). 13.5, 496–497

The European Energy Challenge: East and West by George W. Hoffman (Guy de Carmoy). 13.6, 596–598

Improving Energy Demand Analysis edited by Paul Stern (Tom Berrie). 13.5, 496–497

In Search of Oil by B.F. Grossling and D.T. Nelson (reviewed by Peter Odell). 13.4, 409–410

The International Oil Market by Alessandro Roncaglia, edited by J.A. Kregal (Ferdinand E. Banks) 13.4, 409

The International Uranium Market by Thomas L. Neff (Ian Smart). 13.3, 289–290

Manufacturing Industry and Economic Development in SADCC Countries by Richard Peet (Andrew MacKillop). 13.5, 499–500

Marginal Cost Analysis and Pricing of Water and Electric Power: Methodology Notes by Yves Albovy (T.W. Berrie). 13.3, 290–293

The Natural Gas Industry by A.R. Tussing and C.C. Barlow (Jonathan P. Stern). 13.1, 104–105

Natural Gas Markets after Deregulation by Harry G. Broadman and W.G. Montgomery (Jonathan P. Stern). 13.1, 104–105

The Nuclear Age – Power, Proliferation and the Arms Race by William Sweet (Warren H. Donnelly)., 13.3, 287–289

Nuclear Energy by Simon Rippon (Leonard G. Brookes). 13.1, 108–109

Nuclear Power and Public Responsibility by L.E.J. Roberts (Roger Williams). 13.1, 107–108

Nuclear Proliferation Today by Leonard S. Spector (Warren H. Donnelly). 13.3, 287–289

Oil Economists' Handbook by Gilbert Jenkins (A.F.G. Scanlan). 13.4, 410–411

Oil Futures Trading: The Impact on the Structure of the Petroleum Market by H. Razavi (Ferdinand E. Banks). 13.1, 106

Oil Tanker Databook 1985 by Michael Champness and Gilbert Jenkins (reviewed by A.F.G. Scanlan). 13.4, 410–411

The Plutonium Business and the Spread of the Bomb by Walter C. Patterson (Warren H. Donnelly). 13.3, 287–289

The Political Economy of Coal by Ferdinand E. Banks (Ronald P. Steenblik). 13.6, 598–599

Review of Member States' Energy Policies published by the Commission of the European Communities (Andrew MacKillop). 13.1, 106–107

Rural Energy to Meet Development Needs: Asian Village Approaches edited by Nurul Islam, Richard Morse and M. Hadi Soesastro (Asit Biswas). 13.5, 495–496

Soviet Resources in the World Economy edited by Robert G. Jensen, Theodore Shabad and Arthur W. Wright (Matthew J. Sagers). 13.4, 410–411

Western European Energy Policies: A Comparative Study of the Influence of Institutional Structure on Technical Change by Nigel Lucas (Guy de Carmoy). 13.6, 596–598

Wood, Energy and Households edited by Carolyn Barnes, Jean Ensminger and Phil O'Keefe (Andrew MacKillop). 13.5, 499–500

Publications received

13.1, 110; 13.2, 196; 13.3, 294–296; 13.4, 414–415; 13.5, 501–503; 13.6, 603–604

Meetings on energy

13.1, 110–112; 13.2, 196–198; 13.3, 293–294; 13.4, 415–416; 13.5, 503–504; 13.6, 601–602
